

**TOWN OF COPPER CANYON
POND AND WATERWAY APPLICATION**

(For Fee Amount see 'Appendix A – Fee Schedule' as detailed in the Town's Ordinances)

Date: _____

Applicant Name: _____

Applicant Signature: _____

Applicant Phone: _____

Street Address of Property: _____

Legal Description of Property: Lot ____ Block ____ Subdivision _____
Parcel Number _____

- Description of Project: _____

- Attach a set of construction plans for the pond (include drainage area map, runoff calculations, and a grading plan), and a plot plan showing the location on the property with approximate dimensions to property lines.

Approximate Pond Size _____ acres

Levies or embankments? Yes No Dam? Yes No

Spillways? Yes No Floodplain? Yes No

Jurisdictional Waters? Yes No

Final water level will be higher than the surrounding natural ground level (before dirt work associated with building the pond)? Yes No

If yes to any of the above, a Floodplain Development Permit must also be secured prior to construction.

Floodplain Development Permit Fee: \$150 + Engineering Review and Inspection Fees (billed at 120% of invoice per Ordinance 06-225, adopted 06-12-2006)

- For cleaning/dredging an existing pond where there is no intention of permanent changes to the existing contours and final water level, provide an existing grading plan with any temporary conditions and erosion control measures.

No fill or grading within the floodplain will be permitted without a drainage study sufficient to show that no adverse impact to adjacent properties will result from the construction of the pond. Fill or grading within the floodplain may require a Conditional Letter of Map Revision (CLOMR) from FEMA.

Reviewed and Approved:

Floodplain Administrator
(Town Engineer)
